Santiago Rendón Castrillón

Full Stack Developer

Profile

Highly motivated Full Stack Developer with experience in technologies such as React, Next.js, Node.js, and AWS. Passionate about continuous learning, I stay updated with the latest trends and best practices in web development. Recognized for my creativity in problem-solving and my willingness to collaborate with multidisciplinary teams to achieve common goals. I excel in effectively communicating, working in teams, and quickly adapting to new challenges. My natural leadership is combined with exceptional resilience and sharp critical thinking to deliver innovative and efficient solutions at all times.

Education

I.E COMERCIAL ANTONIO ROLDAL BETANCUR

Technical High School Diploma in Software Development
2021

SERVICIO NACIONAL DE APRENDIZAJE

Analysis and Development of Information Systems
2022 - 2024

Experiencia Laboral

FREELANCE

Freelance in Software Consulting - Node, Express, EJS, MySQL
2022 - 2023

Web Development Consultant, specializing in consulting on projects based on the JavaScript ecosystem, including technologies such as React, Node.js, and other frameworks. My primary focus lies in code refactoring to enhance the efficiency and scalability of applications. Additionally, I provide specialized mentorship in creating APIs with Express, offering comprehensive support throughout the development lifecycle.

DATAKNOW - DAKI

Fullstack Web Developer - React, Next.js, Amazon Web Services
2023 - 2024

Maintenance of the Daki web platform using React, Next.js, Material-UI, Ant Design, and AWS. On the frontend, I optimized interfaces with SASS. On the backend, I developed functionalities using AWS Lambda, API Gateway, SES, and S3, with Boto3 and AWS Amplify. I highlighted the integration of Cube.js for data analysis. I demonstrated skills in problem-solving, teamwork, and adaptation to new technologies, driving the company's growth.

Hard Skills

- Programming Languages: JavaScript, TypeScript, and Python
- Architecture Patterns: Model-View-Controller (MVC)
- Frameworks: React.js, Next.js, Sveltekit, Express.js
- Development Tools: VsCode, Git, GitHub, NPM, PNPM
- Project Management: Jira, Linear, Notion
- Design and UI Tools: Figma, Tailwind, Bootstrap, SASS
- Databases: MySQL, Cube.js
- Agile Methodologies: Scrum
- APIs and Web Services: REST, JSON Web Token, Amazon Web Services

Soft Skills

- Effective Communication
- Teamwork
- Adaptability
- Problem Solving
- Continuous Learning
- Leadership
- Resilience
- Critical Thinking
- Solidarity
